PROFESSIONAL SUMMARY

Backend Engineer with 2+ years of experience building scalable SaaS applications using C, .NET, ASP.NET Core, REST APIs, and SQL Server. Experienced in developing high-volume backend services, optimizing SQL queries, modernizing legacy .NET applications, and integrating third-party systems. Hands-on experience with Azure, Docker, CI/CD, Angular, Playwright, and Generative AI/RAG applications.

EXPERIENCE

iMocha

Sept. 2024 – Present

Associate Software Engineer

Pune

- Engineered a **Report Function Engine** handling **20,000+ candidates** using **C#, .NET, and SQL Server**, enabling real-time data aggregation and analytics across enterprise clients on a high-scale SaaS platform
- Revamped the **PDF Engine** by migrating to **Playwright**, significantly reducing report download times and modernizing the document generation pipeline
- Enhanced **customer-facing features** across the full product lifecycle — from test creation to report analysis improving UX for enterprise end-users
- Improved the **payment portal** with **HubSpot CRM integration**, streamlining billing and subscription workflows for sales operations
- Developed and maintained scalable REST APIs and backend services for enterprise applications.
- Contributing to the modernization of enterprise applications by migrating from **.NET Framework 4.5** to **.NET 8** and transitioning the frontend from **ASP.NET MVC** to **Angular**.
- Optimized SQL queries and improved application performance for large-scale workloads.

Alphansol Pvt. Ltd.

April 2022 – Sept. 2022

Software Developer Intern

Remote, Thane

- Developed a core module of the **365 Care Web Application** using **PHP and CodeIgniter** framework with **MySQL**, contributing to a production-grade healthcare web platform
- Implemented **SEO strategies** for clients including **Imset, Bioxia, and Cleanroom Company**, improving search visibility and organic reach

PROJECTS

Multi-Agent AI Customer Support Pipeline

- Built real-time **Intent Classifier** + **RAG Retriever** agents with Google Gemini 2.5 Flash and agentic tool-use loops
- Engineered multi-LLM abstraction (Groq, Gemini, Ollama) reducing token usage by **75%** through smart retry logic
- Deployed with **.NET 10 Minimal APIs**, SQLite knowledge base, SSE streaming, Docker, and CI/CD pipelines.

Data Extraction Engine

- Developed a high-performance backend system that **automates document capture** from medical records, significantly improving data extraction accuracy and operational efficiency
- Built with **Python, Streamlit, and Pandas**; leveraged **OCR (pytesseract)** for image-to-text conversion and **Regex** for precise structured data extraction

EDUCATION

Gokhale Education Society's R. H. Sapat College of Engineering

Aug. 2022 – Jun. 2024

Master of Computer Applications (MCA) – First Class With Distinction | CGPA: 8.24

Nashik

K T H M College of Science And Commerce Arts

Apr. 2019 – Jun. 2022

Bachelor of Computer Science | CGPA: 7.53

Nashik

SKILLS

Languages: C#, Python, SQL

Backend: .NET 8, ASP.NET Core, REST APIs, LINQ, Entity Framework Core

Databases: SQL Server, MySQL, SQLite

Cloud & DevOps: Microsoft Azure, AWS, Docker, CI/CD, Azure DevOps

Frontend: Angular, TypeScript, JavaScript, HTML, CSS

Testing & Tools: Unit Testing, Postman, Git, GitHub, Playwright

AI: RAG, Multi-Agent Systems, LLM Integration, Google Gemini, Groq, Ollama, GitHub Copilot

Integrations: HubSpot CRM, REST API Integration

Certifications: AWS Certified Cloud Practitioner, Microsoft Azure Fundamentals (AZ-900)
